

Coldstream Youth Project

'Coldstream Youth Project aims to provide a safe and happy learning environment that enhances the lives of children, young people and their families'

Dear child/young person,

You have expressed an interest to staff about wishing to help with a live radio broadcast.

We intend to have the Wired team from Young Scot Scottish Borders and Radio Borders in our very own youth centre this summer! It would be your job to read out a few questions from a questionnaire, that we will be all making together, live on the radio. The questionnaire will focus on topics surrounding young people and going out in the Scottish Borders. Topics such as prices, places young people like to go, new places they would like to go to if it was possible to set up, what they like to eat and drink when out, how much they would pay for the Internet in an Internet café like ours etc... Listeners will then text in their answers and we will use these as research for improving our services in the café.

It is our aim at Coldstream Youth Project to empower young people and I think through doing this we are accomplishing that goal. We hope you think this too!

I would like to also take this opportunity to invite you, parents and also grand parents to our Digital Drop-In taking place on the 16th of May 12.00-15.00. We are working with Scottish Borders Council and Learning for All to incorporate this as part of Adult Learning Week. Feel free to come and ask about anything digital, from handy tips on using digital cameras to predictive text and digital TV. The session is free!

Please see attached consent form relating to the radio broadcast overleaf.

If you have any concerns, please do not hesitate to contact me on info@coldstreamyouthproject.org or one of the numbers below.

Sincerely,
Kevin Ditcham
